Re: Ecology Field Trip

On Thursday 13th February 2014, the Year 11 Biology and Senior Science students will be attending a field trip to study the biotic and abiotic features of a Rock Platform ecosystem at Long Reef. The students will be travelling by bus, which will be leaving the school at 7.45 a.m. (from the bottom gate) and returning by approximately 3.15 p.m.

This field trip is compulsory for all Biology and Senior Science students. Students are to wear comfortable, sensible clothing for working outdoors all day. Sun protection is essential. They should also pack wet weather gear in case of rain. They are required to bring their own lunch and refreshments for the day, as there are no facilities for purchasing food. A water bottle is recommended, as there are no bubblers. Students should also bring a hat, pen, pencil, calculator, eraser, ruler and clipboard.

Clothes and shoes might get wet so bring spare socks, shoes, etc. Do not bring good footwear. No thongs are allowed due to WHS. However shoes need to have good grip for walking on slippery, wet rocks.

Please complete the section below and return it with your son/daughter to school by Thursday 6th February. No note, no go!

Yours Sincerely,

Ms. McCrea, Mrs. Wessels and Mr. Tiglao
Year 11 Biology, Senior Science teachers.
